**PENHALIGONS  
WINTER  
WONDERLAND**

## **CHRISTMAS 2018**

A global scheme for  
Penhaligons across  
Europe, Asia and the US

## WINTER WONDERLAND PENHALIGONS

Creating a global run of windows for Penhaligons Christmas involved months of design, prototyping and drawing.

Production was all done in London, including the creation of 3D houses with flashing lights, moving railway trains and specialist neon signs before being packaged up and

shipped all over the world where we worked with install partners across USA and Asia.
